Jasmine1

Panel Discussion

Maintaining a fine balance between innovation and compliance through FinTech regulation

"This panel discussion revolves around · Open Banking APIs: Analyzing how regulations mandating open access to certain financial data can spur innovation by encouraging collaboration among different financial services.

· Cross-Border Regulations: Discussing the complexities of managing global FinTech services while adhering to various international regulations and standards.

· Innovation-Centric Regulation: Discussing the concept of crafting regulations that focus on outcomes rather than specific technologies, allowing room for future innovations.

· Compliance Challenges for Startups: Analyzing the difficulties startups face in navigating complex financial regulations and suggesting ways to streamline compliance for smaller players.""

Thomas Rijneveld, Partner , PwC Netherlands

Graham Davies, Group Director, SendSpend
